

Merrimack Valley Chapter EGA  
July 19 and August 16, 2002

3D Beaded Star

The basics for making a 3D beaded star will be taught by Rosemary Carter using DiMarca Online's tutorial, which must be purchased at the following line:

<https://www.dimarca-online.com/little-3d-peyote-star-basic-tutorial.html>

This tutorial costs about \$2US. Please print out the instructions or have it on a device you will have available for your use during the class.

Supplies needed for the class are 4 grams cylinder beads, such as Miyuki delicas, thread such as FireLine or OneG, and a beading needle. You can provide your own supplies or a basic kit can be provided for \$10. Other supplies for the class are a bead mat, scissors, and lighting and magnification as needed.

MVC meetings are held at Hampton Inn, 25 Middlesex Turnpike, Billerica MA 0182, 7:00 – 9:00pm.
